FS338 - Foreground Music Speaker

EVAC / BGM

Introduction

FS338 is built as multi purpose speaker, optimising the features of smooth and pleasant outlooks while maintaining the audio performance. Thus by its appearance and sound quality, it can be employed in most indoor venues.

It is driven by 2 x 4" PP speakers and a 1" tweeter with 40W 100V line power. It can also be driven directly from audio amplifier with 4 Ohm connections. Multiple power tapping is available via the rotary switch from 5 to 40W 100V line.

Installation is rather flexible due to its dual angle mounting bracket. They can be mounted in horizontal or vertical position. If wider coverage is required, then can be installed in horizontal array format, with two, three or 360 degree format via the optional mounting pole.
